

Self-Check

Partners' match with the project and consortium as of July 2023

The checklist is supposed to be filled in by a partner interested to enter a project consortium in the build-up phase.

It helps your organisation precise your ideas and the potential actions you would like to develop in the framework of the XY project. The objective is rather to have an idea, to be sure this could fit into the project and is relevant both for your organization and for the consortium.

1. Partners' general information

	Name of the Partner
Contact information	
Type of organisation	NGO, public body, company, SME etc.
Organisations' core activities	
If you are public authority, what competences or public policies is your institution in charge of?	
How is <topic xy> considered in your institution? Can you give any examples?	
Does your organisation develop new (public) policies?	No/Yes - which? Can you give examples?

2. Interest and relevance with the XY project

	Name of the Partner
<p>How does the topic xy echo in your institution? Do you have a dedicated public policy focused on xy? What are the actions targeting this audience?</p>	
<p>Which actions/ideas do you have in mind that could be implemented in the framework of the xy project?</p>	
<p>Which challenge did you identify to be addressed locally?</p>	
<p>How is this project/action going so far? Has it started already What are the strengths/opportunities? What are the weaknesses/threats?</p>	
<p>Which XY principles your project would allow to experiment/implement? Or What would it change for your institution in the "way of doing", internally (in your own organization) but also externally (with the partners and the territory)?</p>	
<p>In which work packages are you interested to be involved (if there are any work packages outlined already)?</p>	

3. Feasibility in a European Project

	Name of the Partner
<p>What would be the added value of a European project for you/your organisation? And for the project results you have in mind?</p>	
<p>Available resources to coordinate the experimentation? How many persons? What disponibility/ how much time (average)?</p>	
<p>What are the competences/skills of the team members? What could you/they do in the project?</p>	
<p>Would the timeline of the project suit you and fit with the timeline of the activities you would like to implement in your organisation?</p>	
<p>Questions/ doubts/warning points so far? Or elements to be deepened?</p>	

This project outline template has been adapted within the project:
 Internet der Dinge für Europa - Digitale Nachhaltigkeit gemeinsam in Europa gestalten - Clever, offen, Für alle und nachhaltig (IOT4EU)
 //
Internet of Things for Europe - Shaping Digital Sustainability Together in Europe - Smart, Open, For All and Sustainable (IOT4EU)
 Project duration: 01/04/2021 – 30/09/2023
